Libraries, Looking to Spend Year-End Funds?

Burgundy offers one-time purchase, perpetual access e-book and e-journal collections:

Burgundy Information Services Ltd is an independent company providing outsourced sales resources to small and medium publishers. Based in Oxfordshire UK, Burgundy contributes to publishers' sales policy, price strategy, license negotiation and sales for online content across European markets.

As we represent a number of publishers that license content on a one-time purchase basis I thought that given the proximity to your budget year end, it might be useful for you to know exactly what we are able to offer in this respect:

ebrary - ebooks – Multidisciplinary Starter Packs, Subject Guides and individual titles

Institute of Civil Engineering – Backfiles – 1836 to 2002

Keesing's World News Archive – Backfiles – 1931 to 2007

Morgan & Claypool Publishers – ebooks – Engineering and Computer Science

Further information relating to these offers is available below...

ebrary is pleased to offer discounted pricing on two new e-book packages, the Core Psychology Collection and Core Self-Help Collection, from Guilford Press. Through July 31, 2008, libraries can save 25% off list price when they purchase either package, both of which include titles that are not available in any other ebrary product. The Guilford Press is an independent publisher of books, periodicals, and other materials known throughout the world. From Psychology, Psychiatry, and the Behavioral Sciences, to Education and Geography, it is dedicated to bringing well-written, solidly researched work to professionals, academics and students, and general readers.

Additionally, libraries can purchase Starter Packs and Subject Guides and can then complement these with individual titles if desired, creating a custom collection that meets your own needs. For current customers, new purchase-only titles provide an efficient way to enhance your existing collections.

Additional discounts on purchased titles - For every US\$2,000 spent on individual e-books, ebrary will discount by 1% of the total list price, up to a maximum of 10%.

The Institution of Civil Engineers creates specialist products and services for the civil engineering and construction markets. These include multi-author reference works, technical books, conference proceedings and journals amongst others.

The ICE Proceedings archive includes more than 200,000 pages covering all issues from 1836-2002. In addition, the Geotechnique archive is available on CD-Rom and includes all issues published between 1948–2001. **One-time purchase prices range from only £650 to £14,128.** Please contact Burgundy Information Services directly for more information or to receive a personalized quotation.

Since 1931 Keesing's has published collected news reports on a daily basis from all over the world in a wide range of languages. *Keesing's World News Archive* is a web-based database comprising more than 95,000 articles, from 1931 to the present. These constitute a concise, accurate and unbiased account of important developments in

each of the world's countries, major international organizations and within selected thematic topics. Keesing's has recently been approved by the JISC and has adopted the standard NESLI pricing and License model.

Burgundy Information Services has negotiated the right to sell the *Keesing's World News Archive* on a one-time purchase basis (1931-2007) with prices ranging from only US\$9,265 to US\$40,000. Please contact Burgundy Information Services directly for more information or to receive a personalized quotation.

Morgan & Claypool publish award winning ebook content via *SYNTHESIS*, their **innovative information service for the research, development and educational communities in engineering and computer science**. *SYNTHESIS* combines authoritative content with advanced digital delivery to create a product that is substantially more useful and usable to a broad range of professionals, researchers, and students than more traditional print or digital publications. Morgan & Claypool has recently been endorsed by JISC and now adopts the NESLI license and pricing model.

***SYNTHESIS* ebook collections are available by subject or as more complete bigger, broader collections on a one-time purchase basis. Prices range from only US\$1,250 to US\$7,000.** Please contact Burgundy Information Services directly for more information or to receive a personalized quotation.

If your institution is a member of a consortium you may be entitled to additional discounts. Please let your consortium know if you are interested in purchasing any of these products or services on a one-time basis or as annually renewable subscriptions as well as contacting Burgundy Information Services directly for more information, to obtain an individual quotation or to set up a trial.

Yours sincerely,
