

Burgundy Information Services to represent American Mathematical Society (AMS)

10th August 2020

Oxford, UK - Specialising in the development and implementation of effective sales strategies for publishers and content aggregators, Burgundy Information Services is pleased to announce a new partnership with the American Mathematical Society (AMS). In this new partnership, Burgundy will expand the reach of their many products to libraries and information centres throughout the UK, Ireland, Benelux, Nordics, Baltics, Central Europe, Russia, Israel, South Africa, Australia and New Zealand.

The AMS has maintained an active publishing program for over 100 years and has established a reputation as one of the leading publishers of advanced mathematics.

MathSciNet[®] is the authoritative gateway to the scholarly literature of mathematics. It contains information on over 3 million articles and books, with direct links to over 2 million articles in over 1,800 journals. *MathSciNet*[®] includes expert reviews, personalisable author profiles, and citation information on articles, books, journals, and authors.

AMS peer-reviewed journals are of the highest quality in mathematical research and the society has maintained one of the world's most respected mathematical book publishing programs for over 100 years.

Speaking of the new agreement, Burgundy Director, Paul Calow, commented, *"We are delighted to be collaborating with the American Mathematical Society, helping to increase the visibility of their leading journals, ebooks and MathSciNet[®] database and supporting their broader mission to advance the subject."*

"At the AMS we value providing outstanding customer service and believe that having Burgundy Information Services represent us will offer our customers the opportunity for even better communication with us, particularly as we navigate a challenging landscape" said Nicola Poser, Director of Sales & Marketing, American Mathematical Society.

About American Mathematical Society

<https://www.ams.org/>

The American Mathematical Society is dedicated to advancing research and connecting the diverse global mathematical community through our publications, meetings and conferences, *MathSciNet*[®], professional services, advocacy, and awareness programs.
